**TETRODOTOXIN, SAXITOXIN, AND THE  
MOLECULAR BIOLOGY OF THE  
SODIUM CHANNEL<sup>a</sup>**

*Editors*  
C. Y. KAO and S. R. LEVINSON

---

**CONTENTS**

---

Preface. <i>By C. Y. KAO and S. R. LEVINSON</i> .....	ix
<b>Part I. Historical Perspectives and Chemistry of Tetrodotoxin and Saxitoxin</b>	
Tetrodotoxin, Tarichatoxin, and Chiriquitoxin: Historical Perspectives. <i>By</i> FREDERICK A. FUHRMAN .....	1
Chemistry and Biology of Saxitoxin and Related Toxins. <i>By</i> EDWARD J. SCHANTZ.....	15
Chemistry and Biochemistry of Saxitoxin Analogues and Tetrodotoxin. <i>By</i> YUZURU SHIMIZU .....	24
The Chemistry of Tetrodotoxin. <i>By</i> HARRY S. MOSHER.....	32
Interspecies Distribution and Possible Origin of Tetrodotoxin. <i>By</i> T. YASUMOTO, H. NAGAI, D. YASUMURA, T. MICHISHITA, A. ENDO, M. YOTSU, and Y. KOTAKI.....	44
<b>Part II. Interaction of Tetrodotoxin, Saxitoxin, and Other Toxins with Sodium Channel</b>	
Structure-Activity Relations of Tetrodotoxin, Saxitoxin, and Analogues. <i>By</i> C. Y. KAO .....	52
Kinetics of TTX-STX Block of Sodium Channels. <i>By</i> W. ULRICH, H.-H. WAGNER, and J. SCHMIDTMAYER .....	68
Use- and Voltage-Dependent Block of the Sodium Channel by Saxitoxin. <i>By</i> VINCENT L. SALGADO, JAY Z. YEH, and TOSHIO NARAHASHI.....	84
On the Mechanism by Which Saxitoxin Binds to and Blocks Sodium Channels. <i>By</i> GARY STRICHARTZ, THOMAS RANDO, SHERWOOD HALL, JANE GITSCHIER, LINDA HALL, BARBARAJEAN MAGNANI, and CHRISTINA HANSEN BAY .....	96
Interactions of Scorpion Toxins with the Sodium Channel. <i>By</i> HANS MEVES, J. MARC SIMARD, and DEAN D. WATT .....	113

<sup>a</sup>The papers in this volume were presented at a conference entitled Tetrodotoxin, Saxitoxin, and the Molecular Biology of the Sodium Channel that was sponsored by the New York Academy of Sciences and was held on December 11-13, 1985 in New York, N. Y.

Toxins That Modulate the Sodium Channel Gating Mechanism. <i>By TOSHIO NARAHASHI</i> .....	133
--	-----

Single-Channel Studies of TTX-Sensitive and TTX-Resistant Sodium Channels in Developing Rat Muscle Reveal Different Open Channel Properties. <i>By RICHARD E. WEISS and RICHARD HORN</i> .....	152
--	-----

### Part III. Biochemical Characterization of Isolated Channels

The Sodium Channel from <i>Electrophorus electricus</i> . <i>By S. R. LEVINSON, D. S. DUCH, B. W. URBAN, and E. RECIO-PINTO</i> .....	162
Biochemistry of Sodium Channels from Mammalian Muscle. <i>By ROBERT L. BARCHI</i> .....	179
Structure and Biosynthesis of Neuronal Sodium Channels. <i>By WILLIAM A. CATTERALL, JOHN W. SCHMIDT, DONALD J. MESSNER, and DANIEL J. FELLER</i> .....	186
Polypeptide Toxins as Tools to Study Voltage-Sensitive $\text{Na}^+$ Channels. <i>By MICHEL LAZDUNSKI, CHRISTIAN FRELIN, JACQUES BARHANIN, ALAIN LOMBET, HAMUTAL MEIRI, DAVID PAURON, GEORGES ROMEY, ANNIE SCHMID, HUGUES SCHWEITZ, PAUL VIGNE, and HENK P. M. VIJVERBERG</i> ..	204
Spatial Relations of the Neurotoxin Binding Sites on the Sodium Channel. <i>By KIMON ANGELIDES, SUSUMU TERAKAWA, and GEORGE B. BROWN</i> .....	221

### Part IV. Reconstitution of Channels into Artificial Membranes

The Structure and Function of the Voltage-Sensitive $\text{Na}$ Channel. <i>By W. S. AGNEW, S. A. TOMIKO, R. L. ROSENBERG, M. C. EMERICK, and E. C. COOPER</i> .....	238
Block of Sodium Channels in Planar Lipid Bilayers by Guanidinium Toxins and Calcium: Are the Mechanisms of Voltage Dependence the Same? <i>By BRUCE K. KRUEGER, JENNINGS F. WORLEY, III, and ROBERT J. FRENCH</i> ...	257
Isochannels and Blocking Modes of Voltage-Dependent Sodium Channels. <i>By EDWARD MOCZYDLOWSKI, AKIRA UEHARA, XIAOTAO GUO, and JUDITH HEINY</i> .....	269
Functional Reconstitution of Purified Sodium Channels from Brain in Planar Lipid Bilayers. <i>By ROBERT P. HARTSHORNE, BERNARD U. KELLER, JANE A. TALVENHEIMO, WILLIAM A. CATTERALL, and MAURICIO MONTAL</i> .....	293
Surface Charges near the Guanidinium Neurotoxin Binding Site. <i>By WILLIAM N. GREEN and OLAF S. ANDERSEN</i> .....	306

### Part V. Molecular Genetic Studies of Channel Biology

Genetic Variants of Voltage-Sensitive Sodium Channels. <i>By LINDA M. HALL</i> ...	313
Analysis of Mutations Affecting Sodium Channels in <i>Drosophila</i> . <i>By BARRY GANETZKY, KATE LOUGHNEY, and CHUN-FANG WU</i> .....	325
Molecular Structure of Sodium Channels. <i>By SHOSAKU NUMA and MASAHIRO NODA</i> .....	338

## Part VI. Cellular Aspects of Sodium Channels

Biosynthesis of Electropax Sodium Channels. <i>By</i> WILLIAM B. THORNHILL and S. ROCK LEVINSON .....	356
Distribution of Sodium Channels in Muscle. <i>By</i> J. H. CALDWELL .....	364
Distribution and Mobility of Voltage-gated Ion Channels in Skeletal Muscle. <i>By</i> W. M. ROBERTS, W. STÜHMER, R. E. WEISS, P. R. STANFIELD, and W. ALMERS .....	377
Distribution of Saxitoxin-binding Sites in Mammalian Neural Tissue. <i>By</i> J. MURDOCH RITCHIE .....	385
High-STX-Affinity vs. Low-STX-Affinity $\text{Na}^+$ Channel Subtypes in Nerve, Heart, and Skeletal Muscle. <i>By</i> RICHARD B. ROGART .....	402
Properties of the Sodium Gating Current in the Squid Giant Axon. <i>By</i> R. D. KEYNES .....	431

## Part VII. Panel Discussion

### Future Directions in Sodium Channel Research

*Moderator:* S. R. LEVINSON

*Panel Members:* ARTHUR KARLIN, H. RON KABACK, RICHARD D. KEYNES,  
and CHARLES F. STEVENS .....

Index of Contributors .....	447
